

# How to connect with CNI through a secure chat room

1. Go to <https://riot.cni-coop.net/> and create an account.

Sorry, we do not allow “guest” accounts – security reasons. On the other hand, we OF COURSE do not need you to provide any real-life details. If you have an email you may associate with the new account, it is good for password recovery needs. But this is entirely your call.
